EDUCATION

Rajalakshmi Engineering College

Chennai, India

B.Tech, Information Technology — 2nd Year | CGPA: 8.1

PROJECTS

Clinical Workup System for Audiologists

Smart Ability Hackathon — 1st Place

- Led development of a full-featured clinical workup system providing AI-assisted diagnostic support across audiology test sections and automated clinical report generation.
- Integrated the Gemini API to power diagnostic assistance and report drafting, reducing manual documentation effort for audiologists.
- Designed and built the system end-to-end, from test workflows to final report output; won 1st place among competing teams.

Tech: Gemini API, JavaScript, React, CSS

AI Code Vulnerability Detector & Fixer

BUILDFEST '26 — 2nd Place

- Built an AI-powered tool that scans code to detect vulnerabilities and automatically generates fixes and improvement suggestions.
- Used the Gemini API for vulnerability analysis and natural-language fix explanations.
- Placed 2nd out of competing teams.

Tech: Gemini API, JavaScript, React, CSS

Project EtherWave

Personal Project

- Built an open-source, ultra-low-latency lossless audio streamer that streams bit-perfect system audio from Windows to any browser over Wi-Fi with sub-100ms latency and no client app required.
- Implemented real-time audio capture and streaming using WebSockets and the Web Audio API.
- Designed a hardware-inspired UI with a live waveform visualizer, stereo volume meters, and real-time network diagnostics.

Tech: JavaScript, WebSockets, Web Audio API

SKILLS

Languages & Tools: JavaScript, HTML/CSS, React, Gemini API, Git/GitHub

Areas of Interest: AI/ML applications, full-stack web development, real-time systems

LEADERSHIP & EXTRACURRICULAR

Film Club — Writing & Direction

Rajalakshmi Engineering College

- Member of the college Film Club, contributing to scripting and direction for student film projects.
